Subject: CES - Emergency Action
Date: Thursday, September 04, 2014 4:05:02 PM

Leroy

We are in need of an emergency action to address oily material on a died area so that it does not enter a residential area. Additionally, we need this same area pumped down so that the contaminated water from the site does not enter this same residential area.

I need action to begin by 8:00 am on Friday morning.
